NATIONAL HEARING DOG DAY

APRIL 19th

Meet
Sherbet!

Tenterfield Terrier

Meet Sherbet!

A tiny powerhouse with endless energy and the cutest personality! She's lightning-fast with her tasks and always eager to work, especially when Fritz (or Devon!) is the reward. In the yards, she loves running around with friends Ollie and Pinky, but seeing her office friend Betty is always a special treat. Her drive to work is incredible, always ready to take on whatever is asked of her. And when it's time to relax? You'll find her in a perfect sploot, legs stretched out behind her. Crazy and cute, Sherbet is a bundle of energy wrapped in the sweetest little package!

Did you know?

Each dog can alert to up to **10** common household sounds? These include the doorbell, door knock, oven timer, phone ringing, alarm clock, baby cry, smoke alarm, and more!

NATIONAL HEARING

DOG DAY

APRIL 19th

Meet

Pinky!

Border Terrier

Meet

Pinky!

The confident, quirky, and sometimes mischievous pup who keeps everyone on their toes! Whether she's zooming across the sand at the beach or charging full-speed into recalls at the National Training Centre, Pinky's playful personality shines through. She loves nothing more than a tasty bite of fritz (or devon!) and spending time with her brothers, Ollie and Clyde! Her fearless nature makes her a superstar in busy shopping centres, though she does love to curl up for a cuddle. But one thing's for sure—Pinky is full of character and always up for an adventure!

Did you know?

Each dog costs us \$40,000 to raise, train and care for and they are delivered **at no cost** to their recipient!

NATIONAL HEARING

DOG DAY

APRIL 19th

Meet

Phoenix!

Labradoodle

Meet

Phoenix!

The fun-loving, friendly, and ever-professional pup who's always ready for action! He's known for his random bursts of energy, but when it's time to work, he shines. A true social butterfly, everyone is Phoenix's best friend, making him the perfect companion for new dogs in the Training Centre yards. When he's not excelling at tasks, he's happily shredding a carrot into tiny pieces before vacuuming up the mess. His signature move? A perfectly timed head tilt at any high-pitched noise. Whether in uniform or just being his relaxed, goofy self, Phoenix is the perfect mix of calm and capable!

Did you know?

It only takes 6-8 months to train one of our dogs. This includes Public Access, Task and Sound training!
